Name: Md. Kamrul Hasan

Email: hasanakash0215@gmail.com

Phone: +8801521469280

Repository link: https://github.com/hasanakashhstu/6am

Documentation:

- To run the project, need to migrate the database or the database that I have used is stored in **file/6am.sql**
- The landing page is for employee login. For admin login need to write **/auth/login** in URL.
- I have done all the task according to the instruction but the task no. 4 "create a customer auth system by REST API using Passport" is mostly done.
